

**FOUNTAIN VALLEY SCHOOL DISTRICT
GOVERNING BOARD MEMBER**

CHRISTOPHER MILES

AGE: 25

OCCUPATION: Community Services Commissioner

As a former student of Gisler Elementary and Masuda Middle School, attending school in Fountain Valley are an important part of who I am. Building upon the strong educational foundation that was laid by the Fountain Valley School District, I am prepared to take that next step in serving my community as a member of the Fountain Valley School Board.

After graduating from Fountain Valley High School I attended the University of Southern California, where I earned BA Degrees in Political Science and English. Currently, I am pursuing my Masters in Public Administration at CSU Long Beach while serving as a Commissioner on the Fountain Valley Community Services Commission. In addition, I teach religious education at Holy Spirit Church, working with youth in both classroom and volunteer settings. I understand complex issues and make informed decisions, having worked in local government and at my current job as a paralegal.

I believe both my personal and professional experiences as a student from the district, community volunteer, and work in local government help me bring vision and sound financial sense to personnel matters, curriculum and budget that inexorably shape our schools' and children's future.
